## KRMCA Concrete Residential Finisher's Certification Award

*Sponsored by:  
Kentucky Ready Mixed Concrete Association &  
Northern Kentucky Concrete Promotion Council*

**The Jackets  
are Back**

***KRMCA'S residential finishers certification is in full swing. This is a 3 hour training session and 25 question test. All questions in the test will be thoroughly covered in the class so all finishers that follow the program should pass the test. To complete the certification process the finisher must be observed in the field following basic quality procedures such as curing the concrete properly. Finishers passing the requirements will receive a 5-year certification plus be listed in the KRMCA directory and web site. They will also receive this wool /leather jacket.***
