ddeters@krmca.org

Phil Kresge, Senior Director of National Resources for the National Ready Mixed Concrete Association, will provide an introduction to concrete parking lots, focusing on the needs of owners, designers, specifiers, and decision makers. The program will cover the benefits, design, maintenance and safety of concrete parking lots. Additionally, the economic and environmental advantages and their contribution toward sustainable development will be discussed. Each attendee will be introduced to the Concrete Pavement Analyst design and cost comparative program and receive a free copy of the CD. Concrete Whitetopping and Roller Compacted concrete will also be covered.
